

Retail Managed Services

The next generation of retail management

The Difference is Us

We save our customers on average 30-40% on depot repairs compared to using major manufacturers.

What is Retail Managed Services?

TRG provides a comprehensive solution to managing your business's devices and a single source for all equipment collected or deployed. We ensure timely, scalable, and cost-effective deployments of mobile devices including POS systems, barcode scanners, mobile computers, printers, and more.

Inside Retail Managed Services

Retail Managed Services

TRG's Retail Managed Services is your all-in-one, customized retail solution for your business.

Mobile & Retail Deployment

Whether you are opening a new store, closing an existing one, or managing devices across multiple store locations, TRG offers a scalable, efficient solution for your business.

Staging, Kitting, On-site Installation and Training

TRG's professional staff will stage your devices and kit the equipment with necessary accessories and instructions, then ship them to their destinations. Once there, TRG employees can assist with on-site installation and training of devices and software.

Custom Dashboard and Help Desk

TRG offers a help desk for your retail associates' questions and troubleshooting. Track, manage, and report on all assets with your customized dashboard through our online portal, ServiceHub.

TRG's offers:

- Mobile deployments
- Device staging & configuration
- Device kitting & equipment allocation
- On-site installation & training
- Custom dashboard & reporting
- Repair of new, used, & legacy equipment
- Spares pool management
- Help desk support
- Buyback of used, broken, & legacy equipment
- Wireless site surveys
- Custom software development

The Difference Is Us

TRG's comprehensive Retail Managed Services will save your business costs, reduce downtime, and improve efficiency. Contact us to learn more about how TRG can improve your business operations.
